<b>40-49: 8</b>	(18.6%)	<b>90+: 0</b>	(0.0%)

### HOW WE ARE SEEING COVID-19 SPREAD

- In the days prior to individuals becoming sick or while experiencing symptoms, individuals reported attending gatherings where people are not social distancing and not wearing masks.
- We continue to see spread between positive cases and other people living in the household/living unit.
- We continue to see community spread, meaning individuals are unsure where they got the virus.
- There are a number of facility-wide COVID-19 public health investigations.
